# Our Company

Caretric Solutions is a trailblazer in electric, mechanical, and automation services, led by CEO Sajjad Hussain. Committed to innovation, we merge cutting-edge technology with sustainability. Our bespoke solutions exceed expectations, reflecting a relentless pursuit of excellence. With a focus on continuous learning, we anticipate industry needs and stay at the forefront of advancements. Rooted in a passion for progress and environmental responsibility, our team shapes the future of services. Join us in this transformative journey, where we sets new standards, contributing to a dynamic and sustainable world

**Sajjad Hussain**  
CEO Of **Caretric Solutions**

# Vision And Mission

## Our Vision

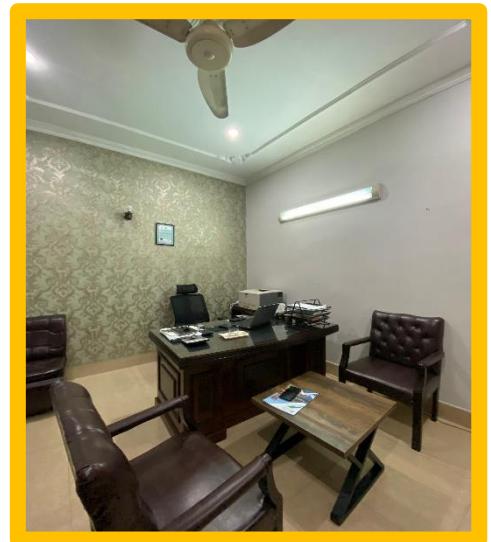

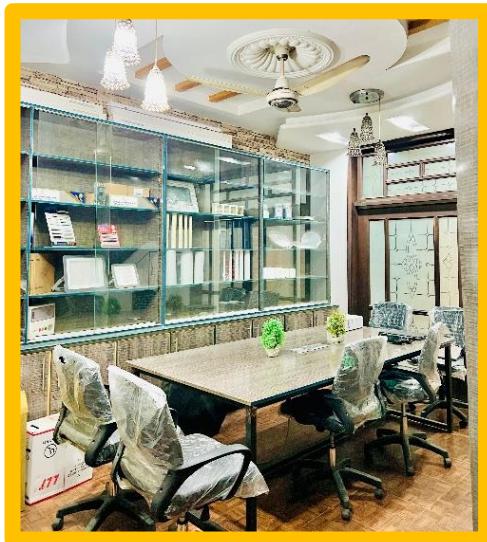

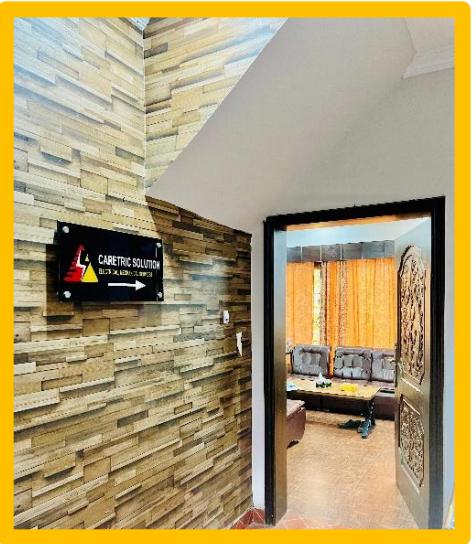

we envision becoming a global leader in electric, mechanical, and automation services, pioneering innovative solutions that redefine industry standards. Our vision is to create a future where cutting-edge technologies and sustainable practices converge to optimize efficiency and reliability. We aspire to be the go-to partner for clients worldwide, anticipating and addressing the evolving challenges of tomorrow

## Our Mission

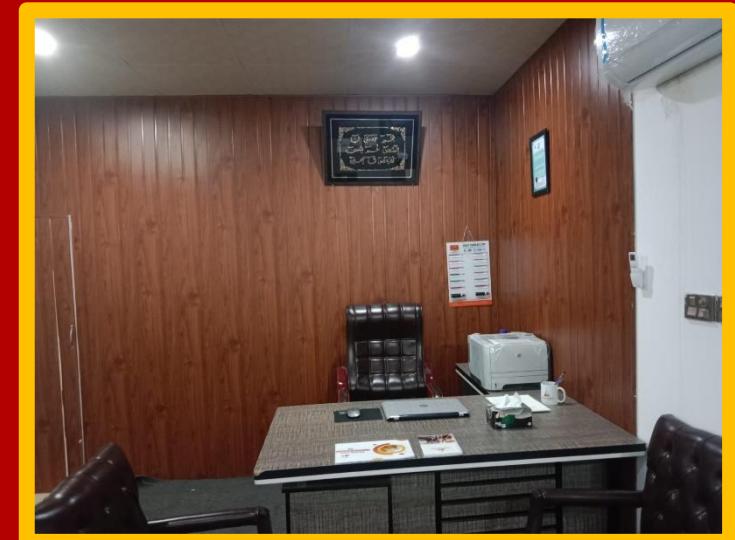

we lead the charge in electric, mechanical, and automation services. Committed to innovation, sustainability, and excellence, our mission is to optimize industries through cutting-edge solutions. We deliver bespoke services that surpass expectations, driven by a passion for progress and continuous learning

# Our Services

In life you can plan for most situations however, there are times when the unexpected occurs when you're least expecting it. Caretric Solutions operates an efficient 24/7 service model, this means that when an unplanned electrical event takes place at home, the office or larger domestic premises we're here to resolve the situation, no matter the day, time or its complexity

## Mechanical

We offer mechanical fabrication services to various industries. Our experienced team of engineers and technicians can design and fabricate mechanical parts and components according to custom specifications and requirements.

## Electrical

We offer complete Electrical services to various industries. Our experienced team of engineers and technicians can design and fabricate Electrical parts and components according to custom specifications and requirements.

## Automation

We offer a comprehensive range of automation services to various industries. Our team of experienced engineers and technicians can design, install, and maintain automation systems to help their clients improve their operational efficiency, reduce costs, and increase productivity.

# ELECTRICAL & FIELD SERVICES

Caretric Solutions possesses the proficiency to provide turnkey projects for the supply and services of Electrical and Instrumentation (E&I) with the utmost commitment to quality standards

- Engineering Services in the field of Electrical Instrumentation and Control systems.
- Process Control Instrumentation
- Designing & Manufacturing of Low-Voltage (LV) Switchgear Panels
- Field Services in the areas of Electrical and Industrial Automation
- Designing & Manufacturing of Motor Control Center & Control Systems
- MEP Services in the Infrastructure Projects
- Engineering Design
- Project Management
- Total turnkey solutions for electrification
- Supply & Execution of complete electrical work.

# AUTOMATION

Our Automation solutions are strategically designed to boost your profitability. Automation, in essence, involves the integration of control systems that encompass machines, actuators, sensors, processors, and networks. The primary aim is to execute tasks seamlessly, with a key focus on automating production processes. This results in heightened precision, efficiency, and overall operational excellence. Our mastery extends across various automation systems, including but not limited to:

- Drives
- SCADA (Supervisory Control and Data Acquisition)
- HMI (Human-Machine Interface)
- DCS (Distributed Control System)
- PLC (Programmable Logic Controller)
- CNC (Computer Numerical Control)
- Robotics

# Mechanical

## Steel Structure Design

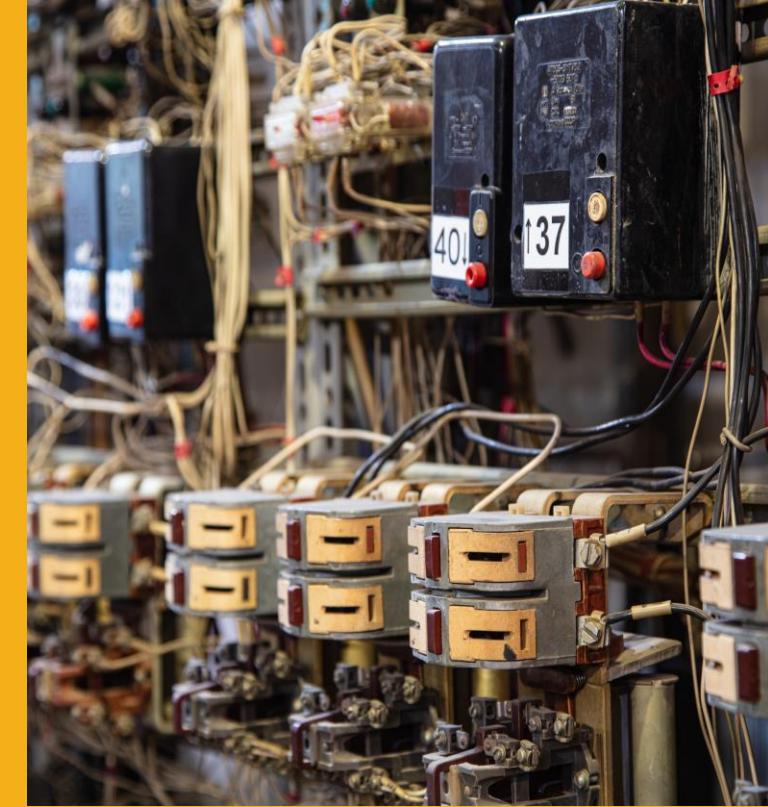

Develop the design for the plant's steel structure, encompassing the following features:

- Equipment Pads
- Radial Gate Design
- Pump House Structures
- Platforms and Pipe Racks
- Workshop & Warehouse Sheds
- Structure for Overhead Cranes
- Telecom Tower Structures

## Mechanical Fabrication & Erection

Installation, Erection, and Commissioning of Mechanical Fabrication:

- Heavy Lift Engineering
- Equipment Installation
- Piping Fabrication & Installation
- Piping Layout with Sectional Details
- Piping Isometrics
- Bill of Material of Plant Piping
- Piping Supports
